

COMMENTS FROM PARTICIPANTS/PARENTS:

I am grateful for Help Youth Through Golf. I think golf is a great sport for my young children to learn because it helps expand their perspective, polish their mind, and exercise their patience.

Thank you Mr. Batson for the example you are setting and the selfless dedication you have to the children and the sport of golf.
The Jones Family - Compton, CA

Thanks to our Sponsors!

Providing quality golf instruction and opportunities to play 52 Saturdays a year is a very big task! At HYTG we are fortunate that we surround ourselves with only the best companies and organizations to provide food, training materials, playing equipment, proper playing attire, etc for our kids. We certainly can't continue our programs without the generous support of the people and companies below.

ABOUT HELP YOUTH THROUGH GOLF:

Help Youth Through Golf is a 501 (c) (3) non-profit organization that focuses on the development and enhancement of youth through golf! The HYTG golf learning programs can help stimulate self worth, enhance good character, reinforce morals and values; and help participants reach their goals in life.

Help Youth Through Golf is dedicated to reach out to every child that wishes to play golf, without the burden of high cost instructions and equipment. We make it affordable for everyone to get exposed to golf and provide a structured and safe environment.

Help Youth Through Golf offers fun while learning the game of golf and will also create an environment that is full of excitement and friendly competition.

Since it's inception in 2011, HYTG has consistently given back to the youth in the middle schools of the Compton/Long Beach area. To date HYTG has active and ongoing programs in 8 of the 9 middle schools that represent more than 95% of the children that attend Compton Unified School District.

In addition to the 20-25 compensated instructional hours provided on site at the various middle schools, Luis conducts, at no charge, two-hour weekly lessons at the Compton Par 3 Course

Let us do the math on that. A quick search on the Internet and you can find out that an average cost for group lessons from a golf professional can range anywhere from \$50 to \$1000, depending on the instructor. A good average I found from several sources regarding an average cost for one on one instruction to be around \$147 per hour. But since Luis is not a professional instructor - he is a professional caddie, the person serious players rely on the most when playing new courses - we'll go with a very conservative number of \$60 per hour for his time and instruction.

There were 53 Saturdays in 2011, there were 52 Saturdays in 2012, and there were 52 Saturdays in 2013. That equals 157 Saturdays. Each free training session is from 1pm until 3pm that is 2 hours. 157 days x 2 hours = 314 training hours. Multiply 314 training hours number by our \$60 average rate for a professional group lesson and the total value for Luis's instruction is \$18,840!

That is an amazing total by itself, but that is assuming he is only teaching one person. Over the course of a year, the average size of our free Saturday classes is a conservative 12 kids. Now multiply the \$18,840 number by each kid in the class, and you will start to see the true value of the HYTG learning program to the kids in Compton/Long Beach is in the neighborhood of \$226,000 over the last 3 years!!!

Your contributions help support

Your children in Your Community!

Yes, I want to support the Help Youth Through Golf tournament and weekly practices!
